***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 47-58, 69, 97, 103-104 and 110-111, and claims 71-79, 81-83, 88-91, 93-94, 98-102 and 106-107, all in part, drawn to a method of making a structural gene encoding an insecticidal protein comprising starting with a coding sequence, reducing the number of ATTTA or polyA signal sequences, and making a structural gene, classified in class 435, subclass 91.4.
- II. Claims 59-66, 80, 84-86, 95-96, and claims 70-78, 87-90, 92, 98-102, 105 and 107-109, all in part, drawn to a method of making a structural gene encoding an insecticidal protein comprising starting with an amino acid sequence and making a structural gene that has fewer polyA or ATTTA sequences compared to the wild-type gene, classified in class 435, subclass 91.5.
- III. Claims 67-68, and claims 70, 75-79, 81-83, 87-89, 92-94, 98-99, 105 and 107-109, all in part, drawn to a method of making a structural gene encoding an insecticidal protein comprising recombining portions of coding sequences of *Bacillus* insecticidal proteins, classified in class 435, subclass 89.

The inventions are distinct, each from the other because of the following reasons:

The methods have different starting materials and different method steps. Thus, a search on one method would not find all art on the other methods.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, fields of search, and classification, restriction for examination purposes as indicated is proper.

Art Unit: 1638

Applicant is advised that for the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
